

**Website**

We have added a lot of events, posts, and other content to the website this year. I encourage division leaders to send me updates to include on the website and on their individual pages.

**Membership**

We have had an average of 257 members throughout the year (between July and April). At our highest, we had 279 members in March. And at our lowest, we had 225 members in August. See the chart below for the full spread.

This year, we created separate listservs for CRLD and DASL members to interact with each other. I am now the manager of these listservs.

We also decided to go paperless, and email our membership cards to members. This is a great way to conserve paper and save money on supplies. It is also a quicker process for me.
